Scanfil plc Stock exchange release 28 June 2024 at 9.00 a.m. EEST

### Scanfil appointed Anette Mullis as the Chief People Officer and member of the Management Team

Scanfil plc announced the appointment of Anette Mullis (BSc) as Chief People Officer and a member of its Management Team, starting at the latest on October 30, 2024. The role is new at Scanfil and Anette will report directly to CEO Christophe Sut.

“We are delighted to welcome Anette to the Scanfil team. Her extensive leadership experience, broad industry view, and strategic approach to HR make her an ideal fit for our company. Her role is new within Scanfil, and with that we aim to speed up strategy execution by developing HR functions. We view our employees as our most valuable asset, and our ability to hire and retain top talents, is a critical component of our successful strategy execution,” said CEO Christophe Sut.

Anette has over two decades of expertise in strategic human resources management across various international organizations. She has a diverse professional background, working in sectors such as telecoms, electronics manufacturing, biotechnology, and pharmaceuticals. Anette joins Scanfil from Arelion, where she served as Vice President of Human Resources and Sustainability, leading the company’s people and culture strategy. Her previous experience includes senior HR roles at Mycronic, Ericsson, CSL Behring, and Wyeth Pharmaceuticals.

In the attachments, you can find Anette’s CV and picture.

Scanfil Plc is Europe’s largest listed provider of electronics manufacturing services (EMS), whose turnover in 2023 amounted to EUR 902 million. The company serves global sector leaders in the customer segments of Industrial, Energy & Cleantech, and Medtech & Life Science. The company’s services include design services, prototype manufacture, design for manufacturability (DFM) services, test development, supply chain and logistics services, circuit board assembly, manufacture of subsystems and components, and complex systems integration services. Scanfil’s objective is to grow customer value by improving their competitiveness and by being their primary supply chain partner and long-term manufacturing partner internationally. Scanfil’s longest-standing customer account has continued for more than 30 years. The company has global supply capabilities and nine production facilities across three continents.
