Eagle Filters Oy, part of Eagle Filters Group, has secured a new order for gas turbine inlet air filters totaling EUR 1.4 million from an existing customer. The order is booked into Eagle Filters' second quarter 2024 order intake with deliveries expected during 2024.

Eagle Filters has developed a high-performance air filtration technology that significantly reduces energy consumption and emissions of gas turbines. Eagle's technology delivers up to millions of euros annual savings (per turbine) to the customer.
