

# Wulff's change negotiations have ended

Wulff reforms its Products for Work Environments Segment in Finland. The reorganization supports optimal resource allocation and streamlines operational models, enabling the company to respond more flexibly to customer needs and market shifts. As a part of the reform, Wulff held change negotiations, involving a total of 60 people. The change negotiations ended on March 31, 2025, and as a result the employment of 9 people will end. The company estimates that the measures will reduce personnel costs by around EUR 0.7 million annually. Streamlining operations strengthens the foundation for sustainable growth and long-term competitiveness.
